I support the continued funding of the Lynn Canal Highway Project.

I would like to see the funding for the Lynn Canal Highway brought forward so that it is completed within five years. The state and travelers do not start saving money until the project is complete.

With the worry about global warming and the fact our ferries are not carbon friendly we need to complete this project.

Also I believe that with the completion of this project we can more better serve those in South East Alaska that do not have the option of roads.
